Mens Jacket

TEXTILE JACKET

Our versatile flagship model boasts CE Certified protective armour, a removable lining, and an additional detachable thermal lining. For superior comfort, the ventilation system ensures this jacket is suitable for all seasons, even in demanding weather conditions. Numerous inner and outer pockets, along with reflective sections, enhance both the practicality and safety of the Sierra Nevada.

MATERIAL:

Outer: 96% polyamide, 4% polyester

Net Lining: 100% polyester

Thermal Lining: 100% polyester

Membrane: 100% polyurethane.

- On and off-road touring jacket for year-round use
- Windproof, waterproof, breathable and perfect for summer use
- Removable liner membrane and detachable thermal lining
- Protectors certified to EN 1621-1 on elbows and shoulders
- Elbow protectors adjustable in height
- Pocket for back protector, certified to EN 1621-2, for retrofitting
- Material reinforcements on shoulders with reflective sections on shoulders and sleeves
- Additional wearing comfort due to 3D MESH ZONE in the lining
- Adjustable hem width using inside drawstring
- Sleeve adjustable in width in two places
- Internal pockets and five outside pockets that feature labyrinth closure system

FM-1204

A light-weight adventure jacket designed for year-round usage. By combining the Aerotex® inner liner and large mesh panels for enhanced air ventilation, comfort and breathability are maximised without compromising safety. The inner rain jacket can be removed and worn separately for hot, rainy days. Storage is ample with two large front pockets and internal pockets for added practicality.

MATERIAL:

Outer: 100% polyamide

Thermal Lining: 100% polyester

Membrane: 100% polyurethane

- On and off-road touring jacket for year-round use
- Windproof, waterproof, breathable and perfect for summer use thanks to a removable jacket (bag included) and through the generous use of air-permeable mesh
- Inner jacket can be also worn as separate rain jacket
- Protectors certified to EN 1621-1 on elbows and shoulders
- Elbow protectors adjustable in height with material reinforcements
- Pocket for back protector, certified to EN 1621-2, for retrofitting
- Reflective sections on the sleeves and back
- Light thermal lining in the removable jacket
- Adjustable hem width using inside drawstring
- Sleeve adjustable in width in two places
- Internal pockets and 2 outside pockets with labyrinth closure system and side access

TEXTILE JACKET

FM-1205

The Compass jacket is a slightly longer motorcycle jacket designed for touring and commuter riders. The liner is wind and waterproof, but also breathable. CE certified protectors on the shoulders and elbows, where you can adjust the height of the elbow protection. Rear pocket for optional back protector. The Compass can be worn all year round. This is due to the removable thermal liner and ventilation zippers.

MATERIAL:

Outer: 100% polyester

Lining: 100% polyester

Thermal lining: 100% polyester

Membrane: 100% polyurethane

- Windproof, waterproof and breathable thanks to liner
- EN1621-1 certified protection on elbows and shoulders
- Pocket for Optional back protector
- Ventilation zippers
- Reflective prints on the sleeves
- Removable thermal liner
- Sleeve width adjustment via internal cord
- 3 outside pockets
- Inner pocket
- Short connection zipper

FM-1206

A durable and waterproof motorcycle jacket designed for all-season use, featuring optimized front ventilation and a rear exhaust outlet for enhanced airflow. The Shuttle is equipped for all riding conditions, with CE Certification, protective armour, a Waterproof lining, and an additional removable thermal lining. Casual Wear

TEXTILE JACKET

FM-1223

The Flare jacket is an ultra-technical and clean, urban riding jacket. The clean and sharp appearance is fashionable and not too moto-centric for on and off-the-bike appeal. The soft brushed polyester outer has been both treated with a DWR (durable water repellence coating) and a laminated back side with a high-performance 8k/5k waterproof and breathability rating- making this 100% waterproof. D3O's shock absorbing LP1 armour is pre-fitted to the shoulders and elbows with space in the back for the D3O viper protector. The Flare jacket can be worn all year round with waterproofing, removable thermal insulation, ventilation and 3M safety reflective.

- 4 Way Stretch Polyester Soft Finish Shell With Fleece Backing
- Laminated Shell With 8K/5K Waterproof/Breathability
- DWR Water Repellent Treatment
- 120g Straight Line Removable Full Body Thermal Lining
- 3M Dark Reflective
- Fixed Mesh Lining
- D3O® LP1 Shoulder And Elbow Protectors Pre-Fitted
- D3O® Viper Large Back Protector Pocket
- Two Lower Zipped External Pockets With Waterproof Zip
- Inside Facing Jet Pocket
- Internal Pockets
- Cuff and Bicep Adjustment Points
- Ventilation Points Front And Rear
- Zip Off Adjustable Fitting Hood
- Waterproof Centre Front Zip With WP Gusset
- Pre-curved Arm Profile
- Subtle Merlin Branding Including TPR Patch
- Short Jacket-To-Jean Connecting Zipper
- Euro Hoop Jacket-To-Jean Connecting Strap
- CE EN17092 Level A Garment
